Capitalized terms used but not defined in the Release have the meaning ascribed thereto in the Collateral Agreements (defined below).

WHEREAS, the Pledgors and Pledgee entered into that certain Patent Security Agreement dated January 28, 2016 (as amended, restated, supplemented or otherwise modified from time to time, the “Patent Security Agreement”) pursuant to the terms and conditions of that certain Guarantee and Collateral Agreement (DIP ABL Facility) dated as of January 28, 2016 (as amended, restated, supplemented or otherwise modified from time to time, the “Collateral Agreement”, and together with the Patent Security Agreement, the “Collateral Agreements”), among NewPage Investment Company, NewPage Corporation (the “Borrower”), each a subsidiary of the Borrower identified therein and Pledgee, as Collateral Agent.

WHEREAS, pursuant to the terms and conditions of the Collateral Agreements, each Pledgor assigned and pledged to Pledgee, in its capacity as Collateral Agent, its successors and permitted assigns, for the benefit of the Secured Parties (as defined in the Collateral Agreement), a security interest (the “Security Interest”) in all of each Pledgor’s right, title and interest in, to and under the Patents (as defined in the Patent Security Agreement), including any and all of the following assets, then existing or owned or at any time thereafter acquired by any such Pledgor or in which any such Pledgor then had or at any time thereafter may have acquired any right, title or interest (collectively, but excluding any Excluded Property, the “Patents”): (i) all patents of the United States Of America and all applications for patents of the United States of America, including those listed on Schedule A; and (b) all reissues, continuations, divisions, continuations-in-part or extensions thereof and the inventions disclosed or claimed therein.
